

Expression for Kids goes beyond the Obvious

Telling a Story – With a difference

Jashanmal Book Store's in association with Veena Gandhi purport the cause of expressions and imaginations of kids with Books, Music, Interaction and expression for a more wholesome tomorrow.

How often have we heard our-selves or our parents say “I did not realize that my child had this talent” or “Oh my god he has excellent writing skills”. Going beyond the “learn and write” system and enhancing the child’s skills is what is purported.

Different session age groups for as young as 1.5 years to 6 year olds. For the toddlers emphasis is on sensorial development and nurturing imagination.

These sessions also vie to enhance interaction between children and strengthen the bond of learning between a mother and a child.

Veena Gandhi has done a number of such sessions for reputable institutions, like **Dubai Modern High School**: Created and wrote a story ‘*Camey lost in the Tropics*’. For my son’s school’s class room, made the other mother’s participate and do a puppet show on the same”. **Friday Farmer’s Market JLT**: associated with the noble cause of healthy living and promoting organic food. Every Friday we have a story telling session with various age groups from as young as 2 to as old as 10. **Holds regular story telling sessions @ Read ‘n’ Enjoy, library, JBR**. Recently conducted story time for 5 year olds from Dubai American Academy school.

Veena Gandhi will be holding the sessions at Jashanmal Bookstores, where we believe in not just selling books but in enhancing value and widening horizons.
